

Low Noise High Voltage Shunt Reactor

Excellence through ingenuity

Headquarter Austria

Coil Innovation GmbH
Nikola-Tesla-Straße 1, 4070 Eferding - AUSTRIA
Phone: +43 (7272) 75200
Fax: +43 (7272) 75200 - 100
Email: sales@coilinnovation.at

US Operation

Coil Innovation USA, Inc.
125 Edinburgh South Drive, Suite 201
Cary, NC 27511 - USA
Phone: +1 (919) 659-0300
Email: office@coilinnovation.com

COIL INNOVATION - EXCELLENCE through INGENUITY

Manufacturing Precision Exceeding the Highest Standards

Optimal Design and Long Service Life

COIL INNOVATION Mission Statement

Coil Innovation is customer focused. Our most valuable asset lies in our highly trained and skilled workers. They are fundamental to the success of our Company through developing innovative designs engineered to meet our clients' most demanding applications, manufacturing and delivering high quality products, and providing excellent service. Furthermore, Coil Innovation is dedicated to maintaining a safe work place, adhering to an ethical code of conduct, and protecting our environment by minimizing waste and minimizing our carbon footprint.

The benefits of
AIR-CORE DRY-TYPE SHUNT REACTOR
when compared to oil-filled reactors are obvious.

Shorter delivery times

Field-Proven insulation system

Frequency independent inductance

Modular concepts

Environmentally friendly - No insulation liquids

Linear voltage characteristics - No coil saturation

Lower maintenance costs

Reduced replacement costs

Reduced total cost of ownership

Reduced cost for spare coils

No bushings

Very high degree of recyclability

Low emissions to protect our environment
